Company Profile

Cervic Environment is a Cervic S.A business unit . A family company with more than 30 years of experience in the innovation, development and manufacturing areas of plastic and metal made products.

We are a leading company in solutions for waste collection and recycling in Spain, having a versatile and innovative catalogue of recycling and litter bins solutions to be placed in any type of environment, both indoor and outdoor: urban areas, shopping centers, hospitals, parks, airports, offices...

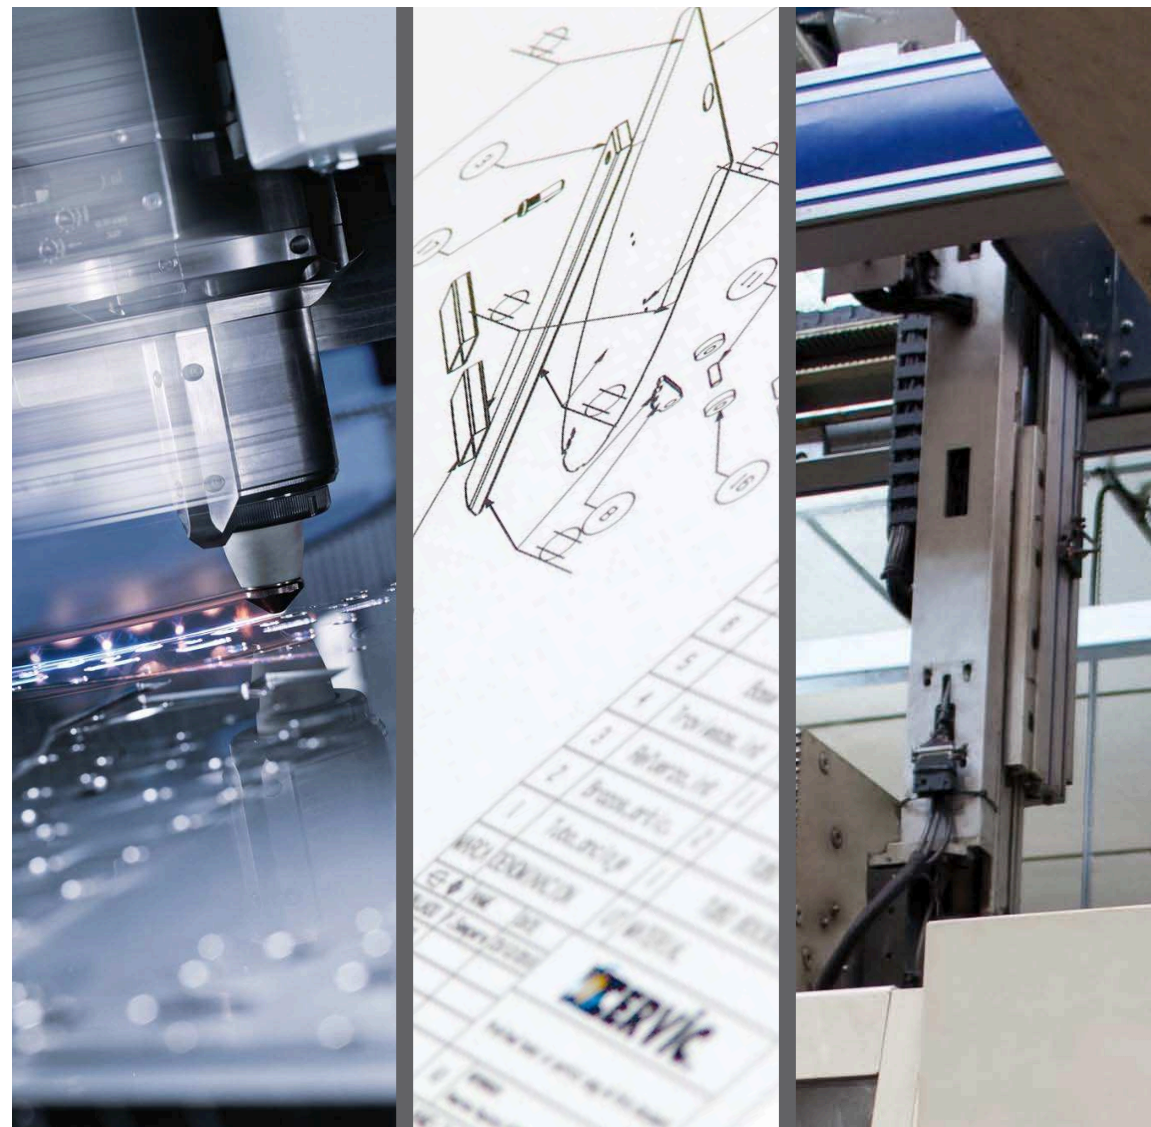

We are manufactures and experts in the development and manufacturing of Turn Key solutions based on every clients' specific needs. We have a own department of R&D projects that permits approaching the development of new highly reliable and competitive products, with maximum guarantees.

Certified by AENOR, with 166.002 UNE management R&D. **Cervic Environment** has been pioneer, becoming the first Spanish company of solutions for selective waste collection having this certificate.

Our products are identified with "ecolabels" and 100% recyclables. They have been designed and manufactured optimizing and reducing the use of raw materials to minimize the environmental impact according to ISO 14021:1999 standard "Environmental labels and declarations"

Projects and clients - **Cervic Enviroment** products have been selected to equip such important projects as:

- **Alicante Airport:** equipped the security filter area one of the largest airports in Spain with a capacity of 20 million passengers a year.
- **University Hospital La Fe in Valencia:** recently opened, is considered the largest hospital in Europe, with 1,000 beds and single rooms.
- **Juan Carlos I Park in Madrid:** the second largest park in the Spanish capital city, ahead of the Parque del Retiro.
- **Benidorm beaches:** equipped one of the major coastal resorts of Spain and Europe, with 6 km of beaches and 4 million tourists a year.
- We also have among our customers organizations and companies as **Coca-Cola, Nestlé, NH Hotels, Popular Bank, Madrid City Council, Groupama Insurance, Madrid University**, and many spanish waste & recycling management companies as **FCC, Urbaser, Cespa**, etc.
